The Horse You Rode In On

Ted Kuster

I **IV** **I**
I hear you've been out every night on the scene
V
Me too, it's the best ride I've been on
I **IV** **I**
You left me with nothing but my self-esteem
vi **IV** **I**
And the horse you rode in on

I see that you burned out our last credit card
It's true you need something to live on
You took everything but the grass in the yard
And the horse you rode in on

I wondered what it was that was shaking our shack
It was you and old Bobby MacKinnon
Now you got your Bobby and me I've got jack
And the horse you rode in on

I'm sorry I made up this song about us
I do hate to hang out our linen
But all I have left is this seat on the bus
And the horse you rode in on
